

EOCheckBoxController

Inherits from: EOController

Package: com.webobjects.eogeneration

Class Description

Documentation for this class is forthcoming.

Method Types

All methods

EOCheckBoxController

CLASS EOCheckBoxController

Constructors

EOCheckBoxController

```
public EOCheckBoxController(com.webobjects.appserver.WOContext aWOContext)
```

Description forthcoming.

EOComboBoxController

Inherits from:	EOTitlesController : EOAssociationController : EOWidgetController : EOComponentController (eoapplication) : EOController (eoapplication) : Object
Implements:	EOWidgetController.QueryWidget
Package:	com.webobjects.eogeneration.client

Class Description

Documentation for this class is forthcoming. For information on using this class, see the book *Getting Started with Direct to Java Client*.

    EOControllerFactory anEOControllerFactory,  
    NSDictionary aNSDictionary,  
    String aString)
```

INTERFACE EOControllerFactory.Delegate

EOControllerFactory.Insert

Implements: com.webobjects.eoapplication.EODocument

Package: com.webobjects.eogeneration.client

Interface Description

Documentation for this interface is forthcoming. For information on using this interface, see the book *Getting Started with Direct to Java Client*.

Method Types

All methods

insertNewObject

insertNewObjectWithRelationshipPathsFilled

INTERFACE EOControllerFactory.Insert

Instance Methods

insertNewObject

```
public abstract boolean insertNewObject()
```

insertNewObjectWithRelationshipPathsFilled

```
public abstract boolean insertNewObjectWithRelationshipPathsFilled(NSDictionary aNSDictionary)
```

EOControllerFactory.List

Implements: com.webobjects.eoapplication.EOObjectDisplay

Package: com.webobjects.eogeneration.client

Interface Description

Documentation for this interface is forthcoming. For information on using this interface, see the book *Getting Started with Direct to Java Client*.

Method Types

All methods

listObjectsWithFetchSpecification

Instance Methods

listObjectsWithFetchSpecification

```
public abstract void  
listObjectsWithFetchSpecification(com.webobjects.eocontrol.EOFetchSpecification anEOFetchSpecificatio  
n)
```

EOControllerFactory.Open

Implements: com.webobjects.eoapplication.EODocument

Package: com.webobjects.eogeneration.client

Interface Description

Documentation for this interface is forthcoming. For information on using this interface, see the book *Getting Started with Direct to Java Client*.

Method Types

All methods

openObjectWithGlobalID

INTERFACE EOControllerFactory.Open

Instance Methods

openObjectWithGlobalID

```
public abstract void openObjectWithGlobalID(com.webobjects.eocontrol.EOGlobalID anEOGlobalID)
```

EOControllerFactory.Query

Implements: com.webobjects.eoapplication.EOObjectDisplay

Package: com.webobjects.eogeneration.client

Interface Description

Documentation for this interface is forthcoming. For information on using this interface, see the book *Getting Started with Direct to Java Client*.

Method Types

All methods

queryObjectsWithFetchSpecification

INTERFACE EOControllerFactory.Query

Instance Methods

queryObjectsWithFetchSpecification

```
public abstract void  
queryObjectsWithFetchSpecification(com.webobjects.eocontrol.EOFetchSpecification anEOFetchSpecification  
on)
```

EOControllerFactory.Select

Implements: com.webobjects.eoapplication.EOObjectDisplay

Package: com.webobjects.eogeneration.client

Interface Description

Documentation for this interface is forthcoming. For information on using this interface, see the book *Direct to Java Client Developer's Guide*.

Method Types

All methods

finishSelecting

prepareToSelect

provideSelectedObjectGlobalID

provideSelectedObjectsGlobalIDs

INTERFACE EOControllerFactory.Select

Instance Methods

finishSelecting

```
public abstract void finishSelecting()
```

prepareToSelect

```
public abstract void prepareToSelect(  
    boolean aBoolean,  
    boolean aBoolean)
```

provideSelectedObjectGlobalID

```
public abstract com.webobjects.eocontrol.EOGlobalID provideSelectedObjectGlobalID()
```

provideSelectedObjectsGlobalIDs

```
public abstract NSArray provideSelectedObjectsGlobalIDs()
```

EOControllerFactory.SelectByInserting

Implements: EOControllerFactory.Insert

Package: com.webobjects.eogeneration.client

Interface Description

Documentation for this interface is forthcoming. For information on using this interface, see the book *Getting Started with Direct to Java Client*.

Method Types

All methods

finishSelecting

prepareToSelectByInserting

provideSelectedObjectGlobalID

INTERFACE EOControllerFactory.SelectByInserting

Instance Methods
